EDUCATION

B.S.

Computer Science

**University of California,
Berkeley**

📅 September 2014 - June 2018

📍 Berkeley, CA

🎓 GPA: 3.8

SKILLS

- Python
- Pandas
- Tableau
- SQL
- R
- Scala
- Hadoop

WORK EXPERIENCE

Data Scientist, Analytics

General Dynamics Information Technology

📅 December 2020 - current

📍 Remote

- Led 52+ data science research and analysis projects, providing oversight and course corrections as required
- Managed and designed research and analysis to improve business performance across and within 7 departments
- Leveraged big data to discover patterns and solve strategic analytic business problems
- Reviewed and reported on 3 teams' project metrics to benchmark effectiveness
- Built 36+ logical models and worked with database administrators to understand and develop physical models and overall data architecture

Data Scientist

Accenture

📅 November 2019 - December 2020

📍 Walnut Creek, CA

- Collaborated with 3 product management and 4 engineering departments to understand company needs and devise solutions
- Facilitated end-to-end development, testing, and monitoring of analytical models for 6 company brands
- Implemented new statistical and mathematical methodologies as needed for specific models or analysis
- Optimized joint development between 4 teams through appropriate database use and project design

Associate Data Scientist

UC Berkeley

📅 June 2018 - November 2019

📍 Berkeley, CA

- Utilized analytical, statistical, and programming skills to collect, analyze, and interpret 1,000+ large data sets
- Worked with 23 stakeholders throughout the organization to identify opportunities for leveraging data
- Built 48+ predictive models and machine learning algorithms to analyze large amounts of information to discover trends and patterns
- Mined and analyzed data from 11 company databases to drive optimization and improvement of product development
